

## HYGIENE UNIT *DISINFECTION STATION DESIGN*

Item no. 9590.HS20.1

Combines functionality with elegant design - the **free-standing design hygiene station with a sustainability concept** for hygienic hand disinfection in a premium version. Supports infection prevention, e.g. in hotels or restaurants, institutions, representative customer waiting or reception areas as well as medical or physiotherapy practices and hospitals

- **Ready to use:** unpack - insert 1 l bottle of disinfectant incl. dosing pump - set dosing quantity - attach Info board and Drip tray - done!
- Noble, reduced design, made of high quality, robust stainless steel
- Information board (optionally mountable) with declaration of use
- Disinfection by arm lever and reduced contact by foot control
- Stable construction and tilt safety
- Sustainable through the use of pump bottles, refill option without product binding, dosage quantity can be set precisely  
*Tip: We recommend pump bottles with a long dosing tip.*
- Environmentally friendly & durable: materials are robust and recyclable, functions are self-sufficient
- Theft protection thanks to the lockable lid compartment
- Attachments can be removed without tools and are easy to clean, stainless steel parts are dishwasher-safe

### Technical Information

Hygiene station made of high-quality stainless steel with a flat base plate for a free, stable stand (dimensions: L x W x H - approx. 43 x 43 x 124 cm). Drip tray made of stainless steel, partially powder coated in white (RAL 9016). Information board made of quality sheet steel, powder-coated in white (RAL 9016) with high-quality sticker as well as 4x screws and 4x nuts for mounting (optional). Assembled dispenser system for all bottles up to a container size of L x W x H - 9 x 9 x 26 cm. Suitable bottle with 1,000 ml of disinfectant including the required dosing pump (refill option). Lockable lid compartment including key. Weight: 16 kg (gross). Delivery form: Assembled (except Information board), ready for immediate use. Shipping on a pallet (dimensions of cardboard per piece: L x W x H - 56 x 56 x 135 cm) - max. two design hygiene stations per pallet.
