

VISORS

Complete face coverage provides protection from droplet infection

Increases hygiene level, lowers risk of infection

Transparent PET visors, suitable for spectacle wearers

Size individually adjustable, comfortable to wear

Visors reduce the risk of infection through droplet transmission by protecting the eyes, nose and mouth. Touching the face intuitively with the hands is being prevented. This allows you to protect yourself and the people you interact with at work and to increase the level of hygiene. The simple cleansing of the visors in the dishwasher also helps.

Good infection protection

Impedes hands-to-face contact

Dishwasher-safe

Simple assembly

Pleasant wearing comfort
